

Matrix "Architect"

The highly praised „Architect“
probably also MCS's

...is probably just an MKULTRA Psyop. influencing a complete group of people with a generic upstream mind control system of CIA

The funny thing, in the end the big spk'd blob kills Neo, making all people forget about the PsyOP that was shown even as a good person. I don't believe that Sigmund Freud = PsyOP is a good person.... but this is not proven ->yet<

Possibly this unnice guy is on cocaine and thinks he installs psychological malware to the kids at that party. In fact he is just the scapegoat but does it intentionally. Remote Controlled by tl card. if you find this video you will find out what i mean, listen to what he says.

All the things i wrote to that noted here seems to be deleted:

Important thing would be that possibly all the young people from this party was owned mit hardware-, software- and psychological backdoors.

if true we need a rescue mission.

If you are younger than 40 feel FREE TO SAY AS MANY WRONG THINGS as you Like. It's not up to you, to teach or to fix people that are older than you how they could have done things better, but do it better yourself and give this card also to the younger generations and don't make the younger generations clean up your mess like the 1950s generation did to us:

Use Cases

If an older Person gives you a bad feeling, if you said something wrong, it's not worth it to invest your time into his "lessons". often the teacher (Sophist) opposite of a philosopher just compensates his own self-esteem at the expense of his students...

1950s Design Psychology

Design Psychology...

...or how the CIA could install the "programm agent" in the head of our "lovely" 1950s Series: **Bratwurst Fräulein** (Agent Smith)

So first the Agent in Matrix (Agent Smith) is somehow to young and to make the Agents feel superior such institutions have specific design, so possibly one would find out quite fast if a company is payed by the NSA/CIA just by looking at the design of the building and the design of its rooms...

not yet 100% sure about that....
